

# Always have the right content, on the right station

Greater demands on manufacturing are accelerating digitalization. With more complex supply chains and a shift towards multi-product manufacturing facilities, companies are transforming operations to enable agility. Digitalizing content and processes allows better support of new business requirements and engages operators—boosting compliance.

Veeva Station Manager is a modern, easy to use mobile application for the shop floor. It helps ensure the right content is always available for greater compliance and efficiency.

## Business Benefits

### Always up-to-date.

Ensure stations on the manufacturing floor always have current content.

### Reduce risk.

Centrally manage and track quality content on each station and device.

### Instant information access.

Enable operators to quickly find and access the right information—boosting compliance.

### Single source of truth.

Seamlessly manage content in Veeva QualityDocs and deliver it onto mobile tablets with Veeva Station Manager.

# Features

## Mobile Application

Designed for the manufacturing shop floor, operators can use tablet devices to access content from anywhere.

## Modern Interface

With an intuitive user experience, operators can quickly find and access documents and work instructions they need with a couple of taps.

## Automatic Content Synchronization

Automatically synchronize content at each station and device with new approved versions.

## Offline Access

Local content copies ensure continuous access to information when offline or in the event of an internet outage.

## Station and Device Specific Content

Centrally manage content and automatically or manually digitally deliver it to each station and approved tablet.

## Robust Audit Trails

Detailed audit trails capture information including every document and version in use on each device.

## Content Formats

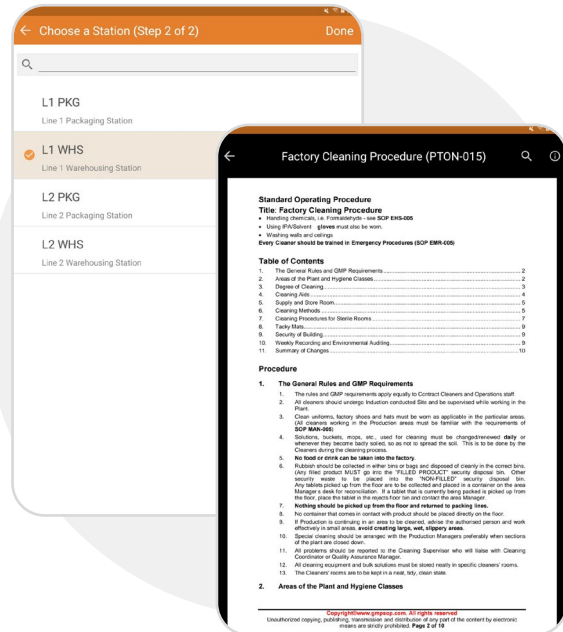

Support for documents and videos, share content such as work instructions using the ideal format.

## Reports and Dashboards

Leverage reports and dashboards to see and track content and versions in use at each facility, station, or device.

## Single Source of Truth for Quality Content

Veeva Station Manager seamlessly works with Veeva QualityDocs to ensure all users and devices have access to a single source of truth for quality

# Veeva Quality Cloud

Veeva Quality Cloud enables the management of quality events from event origination to changing controlled content and completing training on a single cloud-based platform. Connecting quality processes, critical documentation, and training—with Veeva QMS, Veeva QualityDocs, and Veeva Training—accelerates and streamlines event identification, correction, and change management. This end-to-end visibility equips organizations to respond to quality events faster, and provides a complete picture of quality management activities to regulators.
